

Task 1 (Forbidden Forest)

Each team will need to get to the Forbidden Forest without anyone noticing you. The only way to do that is the invisibility cloak. This short rope will act as your invisibility cloak! Each person in your group will have a hand holding it at all times. Each of you will need to work your way over to the Forbidden Forest while holding onto the rope. Once there you and your team members will continue to hold the rope and will have to stay together to find the egg with the clue in it. If someone takes their hand off the rope at anytime you will all need to go back to where you were prior to the forest. Good Luck and be very quiet it is called Forbidden Forest for a reason!
